

13 April 2021

I have the following N scale resin vehicle kits available. These are unpainted castings consisting of a hollow body and a separate chassis/interior. Some of the pickups have a separate rear axle/wheel assembly. The busses have a separate wheel/stub axle for each corner, as shown. The kits are shown with the flash removed. However, you will have to remove the flash from the window openings, except for the bus kits. Some clean up may be required around the lower edge of the body, the edge of the chassis and the edge of the wheels. No window glazing is provided.

Vehicles are \$4.00 each, except as noted. I accept checks, money orders, and PayPal payments. I can also process credit cards via Square. First class postage for the USA is \$4.75 per order, Canada is generally \$14.25. Please inquire for other overseas shipping costs. To order, just send me a note with the quantities of each that you are interested in. I will confirm that I have them all in stock before you send me any payment. You can contact me at BFedoroff@twmi.rr.com

I post updates to this listing at www.nScale.net , www.TrainBoard.com, and www.TheRailWire.net. Please visit one of these forums for the latest news.

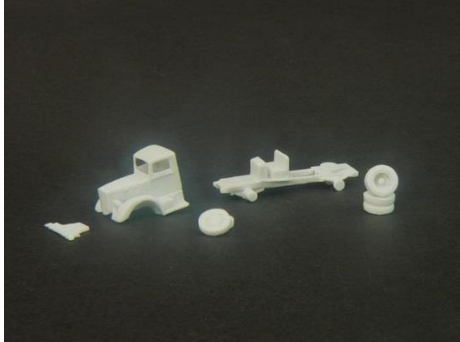

1936 Ford 4 door sedan
